LOSS OF CITY REVENUE IS ENORMOUS
(Continued from page 1.)
Total loss of revenue account new conditions \$11,115.80
Not More Than Half.
Commenting on each item of this loss, the committee said that with reference to the first it was complete and easily obtained, all saloon licenses expiring on Dec. 31, 1914, no refund, however, being necessary. On item No. 2 it was estimated that all saloons would be closed and the receipts therefore cut off entirely. The estimated portion of this account was concerning hotels only. The estimate on No. 3 was made by taking the number of employees now working in saloons, and does not include the brewery. Item No. 4 was obtained by a careful review of the assessment rolls of the city, and is based only on personal property, consisting of stocks of merchandise, furniture and fixtures of stores and other like items. This item does not include loss to restaurants, rooming houses, boarding houses, etc.

In making the report Chairman Heap said that he had been informed by the tax collector and others in a position to know that it was only about one-half that which should be placed in the estimate. However, the council figured on the basis of the report, and all agreed that retrenchment would be based on the same until they had more definite information.

The committee appointed by Mayor Timmerhoff to look into the matter further, on Mr. Heap's motion, is composed of W. L. Richards, H. W. Heap and F. C. Whisman. Their report is to be forthcoming at a special meeting of the council to be called before the arrival of the fatal date, January 1st.
